

## List of the recognized foreign exchanges relative to the reporting requirement

Art. 15 para. 2 SESTA determines that securities dealers must report all the information necessary to ensure a transparent market (reporting requirement). In Art. 2 following SESTO-FINMA the appropriate implementing regulations are determined. Exceptions of the reporting requirement are recorded in Art. 3 SESTO-FINMA. Art. 3 letter a SESTO-FINMA determines that the securities dealer shall not be obliged to report transactions abroad in foreign securities admitted for trading on a Swiss stock exchange, provided that they are conducted on a foreign stock exchange recognized by Switzerland.

According to established practice relative to the release of the reporting requirement, recognized exchanges are the exchanges that are united in the World Federation of Exchanges and/or the Federation of European Stock Exchanges (FESE). All foreign exchanges that are authorized by the Swiss Financial Market Supervisory Authority FINMA in accordance with Art. 14 SESTO are also recognized exchanges concerning this matter, even they are neither member of the World Federation of Exchanges nor of the FESE. As an exception to this rule, besides the Deutsche Börse AG (member of World Federation of Exchanges) also the remaining German (regional) exchanges are recognized in this context.

Name	Location
AMMAN STOCK EXCHANGE	Amman, JORDAN
