

FINMA's international agreements

FINMA's international agreements¹

The table below provides an overview of the international agreements concluded by FINMA for information purposes. The [“List of Foreign Supervisory Authorities”](#) published in connection with FINMA Circular 2017/06 “Direct transmission” may contain deviations. The cooperation agreements and guarantees contained in FINMA’s agreements only apply between the authorities involved and do not have any direct effect.

¹ [FINMA's Memoranda of Understanding in the area of FinTech](#) are published.

² The "Markets" sector encompasses among other things agreements in the areas of securities, financial market infrastructures and funds.

³ AIFMD agreements fulfil the requirements of the EU Alternative Investment Fund Manager Directive (AIFMD) for the cooperation between FINMA and EU supervisory authorities (among other things for the purpose of delegating activities to Switzerland).

⁴ Foreign collective investment schemes must be approved by FINMA if they are to be offered to non-qualified investors in Switzerland. A prerequisite for such approval is the existence of a cooperation agreement between FINMA and the relevant foreign supervisory authority (Art. 120 paragraph 2 let. e CISA). The aim of such an agreement is to regulate the exchange of information and collaboration generally between the corresponding supervisory authorities in order to strengthen the protection afforded to non-qualified investors on a cross-border basis. By contrast, a cooperation agreement of this kind is not required for the offering of collective investment schemes to qualified investors. According to Art. 128 para. 4 CISO, FINMA is obliged to publish a list of the countries of those supervisory authorities with which it has concluded a cooperation agreement pursuant to Art. 120 para. 2 let. e CISA. The approval of a foreign collective investment scheme continues to be evaluated on a case-by-case basis, taking into account all the requirements set out under Art. 20 para. 2 CISA.
